

**Thats Not Love**  
**Keb' Mo'**

Alright, this is the first track on Keb Mo s album JUST LIKE YOU, and no one else seems to have tabbed or chorded this, so I figured I might as well. I suppose since it s a I-IV-V progression you could play it in any key (E-A-B or C-F-G or A-D-E), but I put it here in F, because I m pretty sure that that s the key the song s in. This works pretty well if you re playing along to the album, but I can t figure out the licks and solo. If someone ever does, or if you have questions or comments, email me at planetaweesome@hotmail.com , and I ll do my best to help you out.
