Standard Tuning

This version was a bit more playable (and singable) for me.

Intro: **G C G C**

Verse One:

G **C** **G** **F**
Like a foolish dreamer, trying to build a highway to the sky
C **Am** **B7** **Em**
All my hopes would come tumbling down, and I never knew just why
C **G** **C**
Until today, when you pulled away the clouds
G **F**
That hung like curtains on my eyes
C **Am** **B7** **Em**
Well I've been blind all these wasted years and I thought I was so wise
C **D**
But then you took me by surprise

Chorus:

G **F** **C**
Like waking up from the longest dream, how real it seemed
A **(C)G** **D** **G**
Until your love broke through
G **F** **C**
I've been lost in a fantasy, that blinded me
A **(C)G** **D** **G**
Until your love broke through

Verse Two:

G **C** **G** **F**
All my life I've been searching for that crazy missing part
C **Am** **B7** **Em**
And with one touch, you just rolled away the stone that held my heart
C **G** **C** **G** **F**
And now I see that the answer was as easy, as just asking you in
C **Am** **B7** **Em**
And I am so sure I could never doubt your gentle touch again
C **D**
It's like the power of the wind

Chorus:

G **F** **C**
Like waking up from the longest dream, how real it seemed
A (C)**G** **D** **G**
Until your love broke through
G **F** **C**
I've been lost in a fantasy, that blinded me
A (C)**G** **D** **G**
Until your love broke through
