Standard Tuning

This version was a bit more playable (and singable) for me.

Intro: **A D A D**

Verse One:

A **D** **A** **G**
Like a foolish dreamer, trying to build a highway to the sky
D **Bm** **C#7** **F#m**
All my hopes would come tumbling down, and I never knew just why
D **A** **D**
Until today, when you pulled away the clouds
A **G**
That hung like curtains on my eyes
D **Bm** **C#7** **F#m**
Well I've been blind all these wasted years and I thought I was so wise
D **E**
But then you took me by surprise

Chorus:

A **G** **D**
Like waking up from the longest dream, how real it seemed
B (C)**A** **E** **A**
Until your love broke through
A **G** **D**
I've been lost in a fantasy, that blinded me
B (C)**A** **E** **A**
Until your love broke through

Verse Two:

A **D** **A** **G**
All my life I've been searching for that crazy missing part
D **Bm** **C#7** **F#m**
And with one touch, you just rolled away the stone that held my heart
D **A** **D** **A** **G**
And now I see that the answer was as easy, as just asking you in
D **Bm** **C#7** **F#m**
And I am so sure I could never doubt your gentle touch again
D **E**
It's like the power of the wind

Chorus:

A **G** **D**
Like waking up from the longest dream, how real it seemed
B (C)**A** **E** **A**
Until your love broke through
A **G** **D**
I've been lost in a fantasy, that blinded me
B (C)**A** **E** **A**
Until your love broke through
