

Gotta Let It Go
Keith Urban

Gotta Let It Go

Intro: **D A G D** (X2)

Tuning is standard

D A

Yeah I saw you yesterday

G

I didnâ€™t know what to say

D

Itâ€™s been so long since Iâ€™ve seen your face

D A

What caught me by surprise

G

Was a light there in your eyes

G

Never seen them shine that way

G A

It seems forever, oh oh

G A

Was mine alone

D

I gotta let it go

A

Gotta let it fly

G

I gotta find a way to get on with my life

D

Cause in the end I know

A

Thereâ€™s nothing left to hold

G

Memories and photographs

G

Have all returned to yesterday

G A G A D

Let â€™em fl---y, let â€™em fl---y, away

(Same as first verse)

And as you said goodbye

I stood there wondering why

Some people come into your life

For a moment then theyâ€™re gone

It makes no sense at all

To still be holding on to all this love inside

God, I miss you, oh yeah

And I always will
I gotta let it go

I gotta let it fly
I gotta find a way to get on with my life
Cause in the end I know
Thereâ€™s nothing left to hold
Memories and photographs
Have all returned to yesterday
Let â€™em fly, let â€™em fly, away

(guitar solo)

And I know thereâ€™s nothing left to hold
Memories and photographs
Have all returned to yesterday
Let â€™em fly, let â€™em fly
D A G D (Repeat until end)
