

Til Summer Comes Around
Keith Urban

[Intro]

Am F G (x3)

Am F G
Another long summer s come and gone,
Am F G
I don t know why it always ends this way,
Am F G
The boardwalk s quiet and the carnival rides,
F G
are as empty as my broken heart tonight,

[Verse 1]

F C
But I close my eyes and one more time,
G
I m spinnin around and you re holding on tightly,
F C
The words came out, I kissed your mouth,
G
No 4th of July has ever burned so brightly,
F C
You had to go, I understand,
G
But you promised you d be back again,
F G
And so I wonder round this town,
Til summer comes around.

[Instrumental]

Am F G x2

[Bridge]

Am F G
I got a job workin at the old park pier,
Am F G
And every summer now for 5 long years,
Am F G
I grease the gears, fix the lights, tighten bolts, straighten the tracks,
F G
And I count the days til you just might come back,

[Verse 2]

F C
But then I close my eyes and one more time,
G
I m spinnin around and you re holding on tightly,
F C

The words came out, I kissed your mouth,

No 4th of July has ever burned so brightly,
