Tell Lori I Love Her
Keith Whitley

[Verse 1]
G#
If I were alone in the desert
   C#   **G#**
Without a drink of water around
   C#   **G#**
On my knees and hands in that white, scorching sand
                                  Eb
With the hot Sahara sun beating down
   G#
If I could be granted my wishes
   C#   **G#**
If anything I want could come true
C#   **G#**
I know that it might sound funny
     Eb   **G#**
But here s what I d want you to do

[Chorus]
                 C#
Tell Lorrie I love her
                 G#
Tell Lorrie I need her
       Eb
Tell her everything would be okay
                 G#
If I could just see her
               C#
Tell Lorrie I love her
                 G#
Tell Lorrie I need her
     Bbm
If I leave this old world
         Eb   **G#**
Tell her she s the only girl for me

[Verse 2]
G#
If I were adrift on the ocean
C#   **G#**
A vessel with no sails or steam
C#   **G#**
Floating aimlessly on and endless sea
                                Eb
Hopelessly lost it would seem
  G#
If all of the fish in the water

```
   C#                          G#
Could echo my last dying plea
C#                                G#
I know you might not understand it
    Eb                          G#
But here s what I d want it to be

[Chorus]
               C#
Tell Lorrie I love her
               G#
Tell Lorrie I need her
          Eb
Tell her everything would be okay
                 G#
If I could just see her
               C#
Tell Lorrie I love her
               G#
Tell Lorrie I need her
      Bbm
If I leave this old world
          Eb                        G#
Tell her she s the only girl for me
```
