

Turn Around And Run
Kelly McGuire

Found him on Radio Margaritaville. Awesome singer/songwriter!

Bare with me, I started playing for my 50th birthday and am only playing 2 years.

Could use the guidance and corrections...

[G] From a week in paradise [C] I got used to

[D] Holdin you close ev ry [G] night

As we come down from the clouds and [C] touch the ground

You re [D] squeezin my hand so tight

[C] But if paradise is [D] behind us where we [G] learned less is really [Em] more

[C] And all we needed was each [D] other

[C] Then what the [D] hell are we comin back [G] for

Chorus:

Let s turn around and [D] run

Back to the sea and the [G] sun

Don t need much to have [D] fun

Just some lotion and some [G] rum

We can snorkel for [C] free

Or make love on the [Em] beach

Lay around in the [C] sun

Smartest thing we ve ever [D] done

Let s turn around and [G] run

This pile of a city s so full of people

Buzzin around like flies

All stressed out in their ev ryday world

Dressed up in their suits and ties

Tryin to achieve the next level
With a bonus they can buy a new car
Or a house where they keep their family
They think those things are who they are...

Chorus

We were suffering from a delusion
That we could leave all this behind
No choice but collect our baggage
Get ready for that 8 to 5 grind
As we lugged our way to the exit
I could see the question in her eyes
So I answered with a smile and I grabbed her hand
Last plane back to paradise

Chorus 2X

Lay around in the [C] sun

Smartest thing we ve ever [D] done

Let s turn around and [G] run!
