[Verse 1]

```
G                      Am
I haven t seen you in forever
C                      G
Ah you haven t changed a bit
G                      Am
You didn t think that I d remember
C                      D
How could I forget
```

[Chorus]

```
D          G          D          Am
We sang Bobby McGee on the hood of my car
Am          C
Made a wish on every star
G          D          C
In that clear September sky
G          D
One bottle of wine and 2 dixie cups
Am          C
Three A.M. I fell in love
G          D          C
For the first time in my life
Am          D          G
Oh that something, that just don t happen twice
```

[Verse 2]

```
G                      Am
To this day I still taste that first kiss
C                      G
How I prayed it wouldn t end
G                      Am
In a way, seeing you like this
C                      D
Well I guess I never really did
```
