**A**

We went out last night

**D**

Like we swore we wouldnâ€™t do

**A**

Drank too much beer last night

**D**

A lot more than we wanted to

**D**

**E**

There were girls from Argentina and Arkansas

**D**

**E**

Maine, Alabama and Panama

**D**

**E** (then maybe **A** then **B**)

All mixed together and having a ball

[Chorus]

**D E F#**

Yeah, we went went out last night

One thing started leading to another

**D E F#**

Out last night

Getting to know everybody and their mother

**D**

**E**

There were two karaoke girls drunk on a dare

**D**

**E**

Singing "I Got You Babe" by Sonny and Cher

**D**

**E**

Yeah, life was good everywhere

We went out last night

[Riff]

[Verse 2]

**A**

Well you know Iâ€™m a music man

**D**

I grew up in east Tennessee

**A**

Last night I was everything

**D**

When I got a few drinks in me

**D**

**E**

I was a doctor, a lawyer, a senatorâ€™s son

**D**

**E**

Brad Pittâ€™s brother and a man on the run

**D**

**E**

Anything I thought would get the job done

[Chorus]

**D E F#**

Yeah, we went went out last night

One thing started leading to another

**D E F#**

Out last night

Getting to know everybody and their mother

**D**

**E**

There were people doing body shots up on the bar

**D**

**E**

Jimmy in a fist fight out by the car

**D**

**E**

Everybody was some kind of star

We went out last night

**B**

Well the fact that Iâ€™m still breathing

**B**

Means that I must have survived

**B**

**B**

And that I lived to go out with my friends again tonight

[Chorus]

**D E F#**

Oh, We went out last night

One thing started leading to another

**D E F#**

Out last night

Everybody started loving on each other

**D**

**E**

They were dancing on the tables

**D**

**E**

And howling at the moon

**D**

**E**

Pairing up together and pretty soon

**D**

**E**

There was not a soul in sight

When we went out last night

[Riff]
