

**Sherrys Living In Paradise**  
**Kenny Chesney**

I felt like we needed this beautiful song here!

Sherry s Living In Paradise  
by Kenny Chesney

Capo on 2

**D**  
Sherry s living in paradise  
**D**                    **D/F#**                    **G**                    **A**  
Slinging drinks at a bar down by the beach and you know she  
**D**  
Came here from LA.  
**D**                    **D/F#**                    **G**  
Southern California could not hold her dreams  
                 **Em**                    **A**  
She s happy now it seems

Chorus:

**D**                    **D/F#**                    **G**  
Cause Sherry s living, living in paradise  
**Em**                    **A**  
Chasing something or running from something  
**Em**                    **A**  
Had a lot of lovers that were good for nothing  
                 **D**                    **D/F#**                    **G**  
And she s thought about leaving once or twice  
                 **Em**                    **A**                    **G**  
But she s still in the sun and this laid-back life  
                 **A**                    **G**  
Sherry s living in paradise

**D**  
Sherry s living in paradise  
**D**                    **D/F#**                    **G**                    **A**  
Somehow the salty air, it soothes her soul, she says it makes her whole.  
**D**  
She gets hit on by the tourists  
**D**                    **D/F#**                    **G**  
But she brushes it off cause she s heard every line  
                 **Em**                    **A**  
She just takes it in stride

Chorus.
