Play Electric Waters

Kenny Young

From: Last Stage For Silverworld (1973)

Would you care to take a walk up to the Garden of Extremes

Where negatives are positive, reality s a dream

And ponder if you will upon the flower song of life

Caressing all your thoughts and flirting with your mind

But this could be the last time

Unless, of course, you find another . pasttime

Play electric waters

See the beautiful colors

And the way that your mind flows on a mystical night

Play electric waters

See the sparkling aura

And the way Lady Time flies, . a magnificent sight

Would you care to take a ride up through the Meadow of Content

Where birds of faith fly sideways and hope is heaven-sent

Rivers flow up gentle through sentimental banks

And skies deliver rainbows as a token note of thanks
