Call My Name Kensington

Lies give me lies

Kensington I prefer the song with a capo on the first. But it sounds okÃo in every way! Lies give me lies Run for the tides All of my life Em Am Holding on to save us Holding on to break our downfall Fire give me fire Water to wine All in your eyes Em Holding on to save us F (kb) C Roaming on the grey old grounds beneath You relight us, you re not even trying F (kleine barré) To relight us, you throw it in the fire You will call my name, you will call my name Em Am And we ll beat them all When you call my name, when you call my name F (kb) I will be the one You will call my name, you will call my name And we ll beat them all When you call my name, when you call my name F (kb) C I will be there

```
Run with the blind
Crawl in the light
             Em
                     Am
You throw it off the table
                               F (kb) C
You throw it on the ground for all to see
You relight us, you re not even trying
                                  F (kleine barré)
To relight us, you throw it in the fire
You will call my name, you will call my name
                   Em Am
And we ll beat them all
When you call my name, when you call my name
           F (kb)
I will be the one
You will call my name, you will call my name
                   Em Am
And we ll beat them all
When you call my name, when you call my name
      F (kb)Em C
I will be there
                          Em
                               Am
Breathe the night, inside your eyelids
                                     F (kb) C
You re giving us hope, not giving up hope on us
                             Em Am
And I ll be focused, on what I know was
Giving us hope, giving us hope
C
           Em Am
Αm
You re giving us hope
F(kb)
```

So we won t fall done

C Em Am

Αm

You re giving us hope F(kb)

So we won t fall done

C Em Am

Am(once)

You re giving us hope

C(once)

Not giving up hope on us

C Em Am

F(kb)(once)

You re giving us hope

C(once)

Not giving up hope on us
