

**Feels Like Rain**  
**Kesha**

**C** **G** **Am**  
Woke up a little late today  
**G** **F**  
Looking out the clouds are gray  
**G** **C**  
Got no missed phone calls from you

**C** **G** **Am**  
Still your picture by my bed  
**G** **F**  
Still the one I want instead  
**G**  
But I can't find a way to say

**F**  
Come back (Come back)  
**G**  
You make up what I lack  
**F** **G**  
My pride has left me all alone

It's getting so cold

**F** **G** **F**  
I'm closing the windows to stay warm  
**G** **F**  
It's a chill in my soul since you've been gone  
**G** **Am** **G** **C**  
The silence is louder than any thunder taking me under

**F** **G**  
Oh, I'm staying home today  
**F** **G**  
Gonna hide away  
**F** **G** **C**  
Cause it feels like rain

**C** **G** **Am**  
Do you know what it feels like?  
**G** **F**  
Do you know what it feels like?  
**G**  
Do you know what it feels like?  
**C**  
When it feels like rain

**C** **G** **Am**

Every day just seems the same

And I m the only one to blame

I tried to play like I m fine

But I know the pain is here to stay

That your love has washed away

It falls and runs down the drain

Come back (Come back)

You make up what I lack

My pride has left me all alone

It s getting so cold

I m closing the windows to stay warm

It s a chill in my soul since you ve been gone

The silence is louder than any thunder taking me under

Oh, I m staying home today

Gonna hide away

Cause it feels like rain

At some point this darkness is bound to fade today

It s so hard to believe this storm will ever blow away

I m closing the windows to stay warm

It s a chill in my soul since you ve been gone

The silence is louder than any thunder taking me under

Oh, I m staying home today

Gonna hide away

Cause it feels like rain

**C**                    **G**                    **Am**  
Do you know what it feels like?

**G**  
Do you know what it feels like?

**F**  
Do you know what it feels like?

**G**  
It feels like rain

**C**                    **G**                    **Am**  
Do you know what it feels like?

**G**  
Do you know what it feels like?

**F**  
Do you know what it feels like?

**G**                    **C**  
When it feels like rain.
