

Feels Like Rain

Kesha

C **G** **Am**
Woke up a little late today
G **F**
Looking out the clouds are gray
G **C**
Got no missed phone calls from you

C **G** **Am**
Still your picture by my bed
G **F**
Still the one I want instead
G
But I can't find a way to say

F
Come back (Come back)
G
You make up what I lack
F **G**
My pride has left me all alone

It's getting so cold

F **G** **F**
I'm closing the windows to stay warm
G **F**
It's a chill in my soul since you've been gone
G **Am** **G** **C**
The silence is louder than any thunder taking me under

F **G**
Oh, I'm staying home today
F **G**
Gonna hide away
F **G** **C**
Cause it feels like rain

C **G** **Am**
Do you know what it feels like?
G **F**
Do you know what it feels like?
G
Do you know what it feels like?
C
When it feels like rain

C **G** **Am**

Every day just seems the same

G F

And I m the only one to blame

G

I tried to play like I m fine

C G Am

But I know the pain is here to stay

G F

That your love has washed away

G F

It falls and runs down the drain
