

Goodbye

Kesha

This is just a quick thing I worked out on my guitar, it s probably a bit wrong but it sounds right. :)

D A G D
The hope is fading from my lips
D A G D
When I kiss you with goodbye
D A G D
Now when you let go of our last embrace
D A G D
Please dont look me in the eye
D A G
Secrets out, that I just might care about you
G
You broke me, youre leaving
G D A
Theres nothing I can do

D A
Ill find a way to close the door
G
I want to say so much more but
D A
I found you once, youre lost again
G
Two thousand miles took what could have been
G
I dont want to
G
Wont let myself
G D A G
I have to realize
G
This might be
G
This could be
G D A G
This is goodbye
G D
This is goodbye A G

D A G D
The smile fate was wearing, slowly die
A G D
Minutes turn to months, mmmmmmm

D **A** **G** **D**
The silence of the phone just mocks my cry

D **A** **G**
When I see that youve moved on

D **A** **G**
Secrets out that I did care about you

G **G**
You broke me, you left me

G **D**
There was nothing I could do

D **A**
Ill find a way to close the door

I can t believe how unfair life is sometimes

D **A**
Find a way to close the door

G
I dont want to
