Just like you

```
Hungover
Kesha
(capo 4ª casa)
Gm
And now the sun is rising
                                                     Eb
                                                                Bb
And now the long walk back home (back home)
There s just so many faces,
                                     Eb
                                               Вb
But no one I need to know (need to know)
                                                                     Вb
Gm
                                             Eb
In the dark I can t fight it, I fake til I m numb
But in the bright light,
                                         Bb
                                                    Gm
I taste you on my tongue
Bb
Now the party s over
And every bodys gone
Gm
                                                     Eb
I m left here with myself and I wonder what went wrong
And now my heart is broken
Like the bottles on the floor
Gm
Does it really matter?
Eb
                                            Вb
Or am I just hung over you?
                            Eb
Ah ah ah, ah ah ah
                                Вb
Gm
Or am I just hungover?
Gm
Even my dirty laundry
                                                 Eb
                                                              Bb
Everything just smells like you (like you)
And now my head is throbbing
                                   Eb
Every song is out of tune
Bb
                          Gm
```

```
Eb
                                                                     Bb
Gm
In the dark I can t fight it, I fake til I m numb
But in the bright light,
                                         Bb
                                                   Gm
I taste you on my tongue
Now the party s over
And every bodys gone
Gm
                                                    Eb
I m left here with myself and I wonder what went wrong
Bb
And now my heart is broken
Like the bottles on the floor
Gm
Does it really matter?
                                            Вb
Eb
Or am I just hung over you?
                           Eb
Ah ah ah, ah ah ah
                               Bb
Or am I just hungover?
Gm
Now Iv e got myself looking like a mess
Standing alone
Hear at the end try to pretend but no,
Gm
I put up my fight
                                      Eb
But this is it this time (this time)
Bb
Cus I m here at the end, tryin to pretend
Gm
Here at the end, tryin to pretend
Bb
Oh, ohhh
Bb
Now the party s over
And every bodys gone
                                                    Eb
I m left here with myself and I wonder what went wrong
And now my heart is broken
Like the bottles on the floor
```

Gm

Does it really matter?

Eb Bb

Or am I just hung over you?

F Eb

Ah ah ah, ah ah ah

Gm Bb

Or am I just hungover?
(2x)

Gm F

Ah ah ah

Bb

Or am I just hungover?

Eb
