

Past Lives

Kesha

What an awesome song!!

Here s how I play it.

C Dm Am G

C Dm F G

Em F

C C Dm

We were lovers in a past life

Am G

I can see it your green eyes

C Dm

Maybe you were one of my wives

F G

In a long lost tribe

(Same as above)

There s just something bout you I know

It started centuries ago, though

you see your kiss is like a lost ghost

Only I would know

Em F

But I, I keep on fallin

For you

(Chorus)

C Dm Am G

C Dm F G

Time after time

Time after time

I ll make you mine

Time after...

Time after time

(same as above)

See, millenniums ago, love

We were nothing but stardust

Just the galaxy beneath us

We found weight

Then we made it through the Ice Age

But I lost you in the crusades

I built the pyramids for you, babe

Just to see your face

But I, I keep on falling

For you

(Chorus)

Time after time

Time after time

I ll make you mine

Time after...

Time after time

Yeah...

Time after Time...

Time after Time...

Time after Time...

Time after Time...

Time after Time...

Time after Time...
