The Harold Song
Kesha

Intro: **Em G C**

Em **G**
I miss your soft lips, I miss your white sheets
C
I miss the scratch of your unshaved face on my cheek
Em **G**
And this is so hard cause I didn t see
C
That you were the love of my life and it kills me

Em **G**
I see your face in strangers on the street
C
I still say your name when I m talking in my sleep
Em **G**
And in the limelight I play it off fine
C **Em G**
But I can t handle it when I turn off my nightlight
C **Em G C**
But I can t handle it when I turn off my nightlight

Em
They say that true love hurts
G
Well this could almost kill me

C
Young love murder

That is what this must be
Em **G** **C**
I would give it all to not be sleeping alone
Em
The life is fading from me
G
While you watch my heart bleed
C
Young love murder

That is what this must be
Em **G** **C**
I would give it all to not be sleeping alone

Em **G**
Remember the time we jumped the fence when
C
The Stones were playing and we were too broke to get in
Em **G**
You held my hand and they made me cry while
C
I swore to God it was the best night of my life

Em **G**
Or when you took me across the world we
C
Promised that this would last forever but now I see
Em **G**
It was my past life, a beautiful time
C **Em G**
Drunk off of nothing but each other till the sunrise
C
Drunk off of nothing but each other till the sunrise

Em
They say that true love hurts
G
Well this could almost kill me

C
Young love murder

That is what this must be
Em **G** **C**
I would give it all to not be sleeping alone
Em
The life is fading from me
G
While you watch my heart bleed
C
Young love murder

That is what this must be
Em **G** **C**
