

The Harold Song

Kesha

Intro: **Fm G# C#**

Fm **G#**
I miss your soft lips, I miss your white sheets
C#
I miss the scratch of your unshaved face on my cheek
Fm **G#**
And this is so hard cause I didn t see
C#
That you were the love of my life and it kills me

Fm **G#**
I see your face in strangers on the street
C#
I still say your name when I m talking in my sleep
Fm **G#**
And in the limelight I play it off fine
C# **Fm G#**
But I can t handle it when I turn off my nightlight
C# **Fm G# C#**
But I can t handle it when I turn off my nightlight

Fm
They say that true love hurts
G#
Well this could almost kill me

C#
Young love murder

That is what this must be
Fm **G#** **C#**
I would give it all to not be sleeping alone

Fm
The life is fading from me
G#
While you watch my heart bleed
C#
Young love murder

That is what this must be
Fm **G#** **C#**
I would give it all to not be sleeping alone

Fm **G#**
Remember the time we jumped the fence when
C#
The Stones were playing and we were too broke to get in
Fm **G#**
You held my hand and they made me cry while
C#
I swore to God it was the best night of my life

Fm **G#**
Or when you took me across the world we
C#
Promised that this would last forever but now I see
Fm **G#**
It was my past life, a beautiful time
C# **Fm G#**
Drunk off of nothing but each other till the sunrise
C#
Drunk off of nothing but each other till the sunrise

Fm
They say that true love hurts
G#
Well this could almost kill me

C#
Young love murder

That is what this must be
Fm **G#** **C#**
I would give it all to not be sleeping alone

Fm
The life is fading from me
G#
While you watch my heart bleed
C#

That is what this must be
Fm **G#** **C#**
I would give it all to not be sleeping alone
