

The Harold Song

Kesha

Intro: **Ebm F# B**

Ebm **F#**
I miss your soft lips, I miss your white sheets

B
I miss the scratch of your unshaved face on my cheek

Ebm **F#**
And this is so hard cause I didn t see

B
That you were the love of my life and it kills me

Ebm **F#**
I see your face in strangers on the street

B
I still say your name when I m talking in my sleep

Ebm **F#**
And in the limelight I play it off fine

B **Ebm F#**
But I can t handle it when I turn off my nightlight

B **Ebm F# B**
But I can t handle it when I turn off my nightlight

Ebm
They say that true love hurts
F#
Well this could almost kill me

B
Young love murder

That is what this must be
Ebm **F#** **B**
I would give it all to not be sleeping alone

Ebm
The life is fading from me
F#
While you watch my heart bleed

B
Young love murder

That is what this must be
Ebm **F#** **B**
I would give it all to not be sleeping alone

Ebm **F#**
Remember the time we jumped the fence when

B
The Stones were playing and we were too broke to get in

Ebm **F#**
You held my hand and they made me cry while

B
I swore to God it was the best night of my life

Ebm **F#**
Or when you took me across the world we

B
Promised that this would last forever but now I see

Ebm **F#**
It was my past life, a beautiful time

B **Ebm F#**
Drunk off of nothing but each other till the sunrise

B
Drunk off of nothing but each other till the sunrise

Ebm
They say that true love hurts
F#
Well this could almost kill me

B
Young love murder

That is what this must be
Ebm **F#** **B**
