Kesha

Intro: **F#m A D**

F#m **A**
I miss your soft lips, I miss your white sheets
D
I miss the scratch of your unshaved face on my cheek
F#m **A**
And this is so hard cause I didn t see
D
That you were the love of my life and it kills me

F#m **A**
I see your face in strangers on the street
D
I still say your name when I m talking in my sleep
F#m **A**
And in the limelight I play it off fine
D **F#m A**
But I can t handle it when I turn off my nightlight
D **F#m A D**
But I can t handle it when I turn off my nightlight

F#m
They say that true love hurts
A
Well this could almost kill me

D
Young love murder

That is what this must be
F#m **A** **D**
I would give it all to not be sleeping alone

F#m
The life is fading from me
A
While you watch my heart bleed
D
Young love murder

That is what this must be
F#m **A** **D**
I would give it all to not be sleeping alone

F#m **A**
Remember the time we jumped the fence when

D
The Stones were playing and we were too broke to get in

F#m **A**
You held my hand and they made me cry while

D
I swore to God it was the best night of my life

F#m **A**
Or when you took me across the world we

D
Promised that this would last forever but now I see

F#m **A**
It was my past life, a beautiful time

D **F#m A**
Drunk off of nothing but each other till the sunrise

D
Drunk off of nothing but each other till the sunrise

F#m
They say that true love hurts

A
Well this could almost kill me
