Verse 2 - (same as verse 1, sometimes he plays the chords an octave higher)

Cause you spent all your spin

2004, but nothing much changed,

And nothing felt sure.

Except maybe one thing

One ominous fact

So you checked yourself out

With the crowd that s rolled back

While you re waving goodbye

Clouds grouped in white flags

Prospectors line up

Cuffed jeans and messenger bags

Seeing memories sold

Grave plots in the glow

Cafes and condos

Watch em go watch em go, oh

watch em go, watch em go

Chorus 2 - (same as first until noted)

And so as part of the whole

You try n let go of

All that you can t control

So most of you stay

You settle in waves

Complacently asleep

Or a quarter awake

Keep down the dertif in your brain
