

**Broke Me Up**

**Kevin Drew**

Pretty easy, 3 chords through out the song

Verse:

**D**

We got hours and hours of fights

**G**

I ve seen them in our hearts

**D**

before we sleep

textured like a moment cries

**G**

**D**

i ll only be in parks if you were weak

Chorus

**Em**

**G**

**D**

cuz everybody broke me up

**Em**

**G**

**D**

everybody broke me up,

**Em**

**G**

**D**

everybody broke me up

this is how they used to live

before they got the cars to help them sing

child-like a moment stance I ve seen a pack of wolf turn to rings

and all we have is what you thought

before you left and I got this song

so take me through the makeshift lies

I don t know if you ever will

cuz everybody broke me up

everybody broke me up, everybody broke me up

And I can t dance cause I don t know the time

and I can t chance cause I already had mine

everbody broke me up, everybody broke me up

everbody broke me up, everybody broke me up

Let s dance put away the crack head kids

and try to live in no man s times

they will do the sidewalk things cause they dreamt to you in sleep

and sleep is all we have  
and sleep is all we have
