To sing it in whatever pitch you want just move the capo around the guitar and play pitch you want. but play the same chord forms. i think it sounds good with the Capo on the but thats just me. this is my second tab and the first tab for this song.

This is the soundtrack to my life, the soundtrack to my life

I m super paranoid, like a 6th sense
Since my father died, I ain t been writing since
And I tried to piece the puzzle of the universe
Split an eighth of shrooms just so I could see the universe
I tried to think about myself as a sacrifice
Just to show the kids they ain t the only ones who up at night
The moon will illuminate my room and soon I m consumed by my doom
Once upon a time nobody gave a fuck
It s all said and done and my cock s been sucked
So now I m in the cut, alcohol in the wound
My heart s an open sore that I hope heals soon
I live in a cocoon opposite of Cancun
Where it is never sunny, the dark side of the moon
So it s more than life, I try to shed some light on a man

Not many people of this planet understand

I ve got some issues that nobody can see
And all of these emotions are pouring out of me
I bring them to the light for you
It s only right
This is the soundtrack to my life, the soundtrack to my life

I m prolly this close to go and trying some coke
And a happy ending would be slitting my throat
Ignorance to cope man
Ignorance is bliss
Ignorance is love, and I need that shit
If I never did shows, then I d probably be a myth
If I cared about the blogs, then I d probably be a jack-ass
Don t give a shit what people talkin bout fam
Haters shake my hand but I keep the sanitizer on deck
Hope I really get to see 30
Wanna settle down, stop being so flirty
Most of the clean faces be the most dirty
I just need a thoroughbred, cook when I m hungry
Ass all chunky, brain is insanity
Only things that calm me down, pussy and some Cali trees
And I get both, never truly satisfied
I am happy, that s just the saddest lie

I ve got some issues that nobody can see
And all of these emotions are pouring out of me
I bring them to the light for you
It s only right
This is the soundtrack to my life, the soundtrack to my life
