Kid Loco  
A Little Bit Of Your Soul

**D A**

Where are you now I can only see your face

**Em G**

That s no good, If only I could forget  
I know your hips, I know your zips  
I kiss you lips and everything is great

[Chorus]:

But what I need baby  
Is a little bit of your soul  
But you re too cold baby  
And your blood don t flow

**D A**

You thought me a few tricks in bed

**Em F#**

And that a lover can t be your friend

**G D**

So maybe flying can be a lot of fun

**Em G**

Getting shot might be somewhere in the plot

[Chorus]

You re too cold baby  
You re too cold baby  
And your blood don t flow

Just gimme your soul baby

MATTEO
