

Cold And Empty
Kid Rock

G **Em** **D**
Maybe I ve been on the road too long living my life thru these songs
C **G**
I guess loving a music man really wasn t in your plans
D **C** **G**
Does it matter if I m sorry again

Em **D**
And why should I apologize you knew all along this was my life
C **G**
You know my ins and outs all my fears and doubts
D **C** **G**
It s the life I love but it s you I can t live without

Am **G**
And this old world seems cold and empty
Am **G**
Someone please turn on the lights
Am **G**
Lord if there s an angel you could send me
D **C** **G**
I could use one here tonight

G **Em** **D**
Now where am I supposed to go my only home was in your soul
C **G**
I know that I can t stay here and drown in a pool of tears
D **C** **G**
Should I pack my pride and face this life alone

Am **G**
And this old world seems cold and empty
Am **G**
Someone please turn on the lights
Am **G**
Lord if there s an angel you could send me
D **C** **G**
I could use one here tonight

Am **G**
Maybe it s me who s cold and empty
Am **G**
And in my darkness I can not see the light
Am **G**
Please God if there s an angel you could send me
D **C** **G**
Cause there s one missing from my life
