A **C#m**
Been sittin' alone / Thinking about the past
F#m **A**
Another lonely night / Another empty glass
D **F** **D** **A**
This path I'm walking / Always seems to lead nowhere
A **C#m**
I wonder how much you think of me
F#m **A**
How we used to lough / How we used to be
D **F** **D** **A**
It seems like freedom / Has never had a man so scared

CHORUS:

A **E** **D**
Times might change / Love it comes and goes
F#m **E** **D**
How I wished I could have shown you / How deep for you my love goes
A **C#m** **F#m** **A**
I know this might seem crazy / I would end my life for you
D
You know I don't want to
E **A** **E** **A**
But I'd do it for you / Hey I'd do it for you

I wonder how much you think of me
It hurts to think the past / Is all that you can see
Now it seems like freedom / Is better than the love we shared

(REPEAT CHORUS)

Listem to me
I wonder how long it takes to see
There's nothing more I want / Then you here with me
Freedom's been knockin' / But i refuse to let her in

Time might change / Love it comes and goes
How I wished I would have shown you / How deep for you my love goes
And I know this might sounds crazy / I would end my life for you
You know I don't want to
Come bock home and care for you
Baby I'd do anything for you

Iâ€™d do anything for you
