Slow My Roll
Kid Rock
Kid Rock - Slow My Roll
          C#
There s a new day on the horizon
There s a rising in the air
Somewhere somebody s tryin to tell me they care
So I m a lift my head to a new day
Plant my feet on the ground
Look at life in a new way and what s goin down
Cuz today s the day, I m gonna take things slow
        F#
Try and change my ways, forgive and let all that go
Tell the ones I love, what they need to know
I m gonna turn around, settle down
            C#
And slow my roll
Guitar: C# - C# - H - F# - C# - C#
Mixin loneliness and whiskey
Heartache and cocaine
Livin life like a gypsy, lost and ashamed
So I {\tt m} a look to the Lord as {\tt my} witness
Rest my hat on a shelf
Trade these boots for forgiveness and find myself
Cuz today s the day, I m gonna take things slow
        F#
Try and change my ways, forgive and let all that go
D#7
Tell the ones I love, what they need to know
                         F#
I m gonna turn around, settle down
And I can t believe 16 has long since past
Cuz I m tired of runnin , and never looking back
                         н
```

And I won t survive if I live this life this fast, no, no

Guitar: C# - C# - H - F# | x2

F# C#

And today s the day, I m gonna take things slow

F# C#

Try and change my ways, forgive and let all that go

Tell the ones I love, what they need to know

H F‡

I m gonna turn around, settle down

C#

And slow my roll

C# - C# - H - F#
