

Used To Pretend
Kilians

kilians " used to pretend

whole song is

G Cadd9 Em7 G

you used to move on
I used to stay out
Pretend to stay calm
Well i used to shout

Its no single tear
that i want you to cry
you got me off
and im telling lies

you say what you need
and i say what i like
you used to move on
but i used to get high

theres no reason why
no need to blame
everything remains
but its not the same

i used to pretend
thats its not my day
used to pretend
that im on my way

you used to love
but its on your mind
i seemed to brake
for the second time

you say what you need
and i say what i like
you used to move on
but i used to get high

theres no reason why
no need to blame
everything remains
but its not the same

i used to pretend

thats its not my day
used to pretend
that im on my way

you used to love
but its on your mind
i seemed to brake
for the second time

you used to pretend
that our love to stay
used to pretend
that its on its way

you used to love
but its on your mind
i seemed to brake
for the second time

so say what you need
and i say what i like
say what you need
id say what i like
say what you need
no its not what i like
say what you need
its not what i like

i used to pretend
thats its not my day
used to pretend
that im on my way

you used to love
but its on your mind
i seemed to brake
for the second time

used to pretend
used to pretend
used to pretend
