

## I Feel Like A Fading Light

Kim Taylor

Neither the lyrics nor the chords are very common, so I transcribed both.

Notice that she just plays 8th notes for the entire song; listen to a recording for the exact beats. You can also add a 7 chord during transitions if you want to make it sound even better (but, this is the novice version).

**C** **E**  
You know I never seem to get it right

**Dm** **C**  
I feel like a fading light some days they, they don't come so easy.

**C** **E**
