You Came
Kim Wilde

hey, this is my first time uploading chords, i ve done it only from hearing -
hope it s right.
this is a great song from the 80 s by a very sexy singer..

Kim Wilde - You Came

(Intro X 3)
A-**B B**-**E**-**A B**-**E**

A   **B**   **E**
someone I know is staring at me
A   **B**   **G#M7**
And when I look into her eyes
A   **B**   **A**
I see a girl that I used to be
                B   **E**
I hardly recognise

C#   **F#M**
Cos in the space of a year
                         E   **BM**
I ve watched the old me disappear
         F#M   **E**
All of the things I once held precious
               Ab
Just don t mean anything anymore

Cos suddenly

(Chorus)
A   **B**   **E**   **A**
You came, and changed the way I feel
            B   **E**
No one could love you more
        A   **B**   **E**   **A**
Because you came and turned my life around
               B   **E**
No one could take your place

A   **B**   **E**
I ve never felt good with permanent things
A   **B**   **G#M7**
Now I don t want anything to change
A   **B**   **A**
You can t imagine the joy you bring
               B   **E**
My life won t be the same

```
C#                                        F#M
And I ll be there when you call
               E                 BM
I ll pick you up if you should fall
            F#M                   E
Cos I have never felt such inspiration
     Ab
Nobody else ever gave me more because

(Chorus)

A                          B              E
I watch you sleep in the still of the night
A           B          G#M7
You look so pretty when you dream
A         B                    A
So many people just go through life
            B             G#M
Holding back, they don t say what they mean

But it s easy for me

Since

(Chorus X 2)
```
