

Better Weather
Kimya Dawson

...just **F** and **C**...

F **C** **F**
There are my specs

F **C** **F**

the ones I ve been looking for
I threw them out my window ten years ago
and now they re on my doorstep

F
so you put one and one together

Bb
and there will be better weather

F and you know that it s forever now that he has custody

F **Bb**

with his son up on his shoulders they are a sight to behold

F**C**

cause the dad is twenty eight even though he looks seventeen
so you ll never guess the woes that they have known
cause they don t show
and in a couple years they ve grown into a perfect family
I m so proud my brother did so good with his kid
I just wish that I could live with the fishes I love in their anemone
but I m a turtle it wont work I ve gotta stay out in the current
with my house upon my back so I can hide inside of me
all together in the tank you always dreamed about escaping
when you finally make a break for it you deserve to be free
to be free
to be free
to be free

there are my spectacles
the ones I ve been looking for
I threw them out my window ten years ago
and now they re on my doorstep
that s how it happened
the confusion at the store
the shark never knew his father
and the baby never knew his motherboard
