

Better Weather
Kimya Dawson

...just **F#** and **C#**...

F# **C#** **F#**
There are my specs

F# **C#** **F#**
the ones I've been looking for
I threw them out my window ten years ago
and now they're on my doorstep

F#
so you put one and one together

B
and there will be better weather

F# **C#**
and you know that it's forever now that he has custody

F# **B**
with his son up on his shoulders they are a sight to behold

F# **C#**
cause the dad is twenty eight even though he looks seventeen
so you'll never guess the woes that they have known
cause they don't show

and in a couple years they've grown into a perfect family
I'm so proud my brother did so good with his kid
I just wish that I could live with the fishes I love in their anemone
but I'm a turtle it won't work I've gotta stay out in the current
with my house upon my back so I can hide inside of me
all together in the tank you always dreamed about escaping
when you finally make a break for it you deserve to be free
to be free
to be free
to be free

there are my spectacles
the ones I've been looking for
I threw them out my window ten years ago
and now they're on my doorstep
that's how it happened
the confusion at the store
the shark never knew his father
and the baby never knew his motherboard
