Then all you want is some vacant guitar sounds over the bass...

Try slide on the 7th to 9th frets on your D string...

The ending is just those 2 notes repeated.

The last bit is hard to suss out, but that's about all I have time for. Try up around 14th fret on your e string to get an idea of what you ought to be doing. Sorry this isn't complete 2 tabs but hey, it's 1 and a bit for the price of 1. (Which Ironically on this site is free :D)
