Mother's Ruin " Kirsty MacColl

**F#m**

Mother s ruin

She said to herself

**E**

I m just screwing my own mental health

But Fridays and Saturdays

**D**

She walks down those alleyways

A latter day lady of the lamp

**F#m**

How you doing?

You ain t from round here

Won t you come in?

**E**

I m really not scared-

Cause Fridays and Saturdays

**D**

I still do it anyways

And anything is better than out here

**A**

Now don t wake me up again

Don t let me feel anything

**D**

But when you go

Let me dream that I go with you

**E**

**F#m**

So I won t cry myself dry anymore

**F#m**

Mothers ruin

Their own little girls

Keep them dreaming

**E**

There s more to this world

But turn her the other way

**D**

And every day s Father s Day

He stays until there s nothing left to say
