Big Bad World
Kodaline

This song is played live with the guitars tuned half a step down. So if you play along
with these chords, it won t sound right. So in order to sound exactly the same you need
to tune your guitar a half step lower.

All the chords are standard, exept for the G in the chorus and bridge, that s a bar
chord G, not a standard G :)

[1st Verse]

```
Am        C       F      C
Maybe I m wrong or maybe I m right,
E        Am      F      G
Maybe it s just too late but this is keeping me awake at night.
Am        C       F      C
Maybe say yes or maybe say no,
E        Am      F      G
Maybe I m just to shy to admit that it s time to go,
```

[Chorus]

```
Am           C              F              C
We go out on our own it s a big bad world outside,
G                    Am
Carrying our dreams and all that they mean
F               G
Trying to make it all worthwhile (x2)
```

[2nd Verse]

```
Am        C       F      C
Maybe believe or maybe don t care,
E        Am      F      G
Sure maybe there is no God in the big white clouds up there,
Am        C       F      C
Maybe live long or maybe die young,
E        Am      F      G
Or maybe live every day like it s your last day under the sun.
```

[Chorus]

```
Am           C              F              C
```

We go out on our own it s a big bad world outside,
G   **Am**
Carrying our dreams and all that they mean
F   **G**
Trying to make it all worthwhile

[Bridge] Ooooh-part.
Am C F C
G Am F G (2x)

[Chorus]

Am   **C**   **F**   **C**
We go out on our own it s a big bad world outside,
G   **Am**
Carrying our dreams and all that they mean
F   **G**
Trying to make it all worthwhile

Am   **C**   **F**   **C**
We go out on our own it s a big bad world outside,
G   **Am**
Carrying our dreams and all that they mean
F   **G**
Trying to make it all worthwhile (x2)
Strum **Am** to finish.
