

Moving On
Kodaline

G

I met you on the corner of the street

I smiled before I even heard you speak

Em

I can accept we're growing older, but I guess that's just the way it has to be

G

I wondered how you still remembered me

I heard you settled down and that you married happily

Em

Do you remember when I told you that I'd love you to the bottom of the sea?

Em

Yeah I know I know it's over but I guess that's just the way it has to be

C **D** **G** **D** **C**

Sometime in the future maybe we can get together,

C

D

G

Maybe we share a drink and talk awhile

C

D

G

D

C

And reminisce about the days when we were still together

C **D**

Maybe somewhere further down the line

C

G

And I will meet you there

Em

D

Sometime in the future we can share our stories

C

G

B7

Em

D

When we won't care about all of our mistakes, our failures, and our glories

C

D

G

But until that day comes along I'll keep on moving on.

C **G** **D**

I'll keep on moving on

G

It's funny how but it still bothers me

Em

I know it's been so long but I did not expect to see oh how beautiful you are

C

G

I guess that all that time apart has done you well

Em

C

G

But hey I wish you all the best and maybe someday we might even meet again

C

D

G

D

C

Yeah, sometime in the future maybe we can get together,

C

D

G

Maybe we share a drink and talk awhile

C
