                        F#
For your brother s sake

E                        G#m

                  G#m
Just to beat the fear
                              F#

Have got a way of changing
                              D#m
Their stripes in the light of a new day
C#m                          E
