This is not the version that will be on the album. This was played at Woodstock 99.

Riff 2A-Munky

Munky uses a volume pedal right here. He plays the note while Head is playing his thing but press the volume pedal around the time when Head hits the 19th fret on Riff 2B. I can't really describe it any differently.

This is the cool part thats played though out most of the song

E ||-----|

D ||-----|  
G ||-----|  
B ||-----13-10-----13-10----12--|  
E ||-10-13-12-----12----10-13-12-----12-----|

Then it just alternates between an A chord and a D chord, its easy enough to figure out yourself, if u can play the guitar and like KoRn that is. But only play the top 3 strings and put mad ditorsion on it or it sounds like dave matthews band, he sucks
