

Wooden Pints
Korpiklaani

Once again, I don't know what's used in the song, but if you want to take the metal out folk metal give these chords a go :)

1. Wooden Pints

F#m

There's men, underground

Who have never seen the sun

E (A) **F#m**

But they really know how to party

Little men from underground

Who have never seen the sun

E (A) **F#m**

But they really know how to party

[Chorus:]

A **E** **F#m**

They raise their wooden pints and they yoik and sing

A **E** **F#m**

And they fight and dance till the morning

A **E** **F#m**

They raise their wooden pints and they yoik and sing

A **E** **F#m**

And they fight and dance till the morning

Tables full, reindeer meat

And the camp fire shines and the brick walls are full candles

Tables full, wooden pints

They don't care about their sins

They just wanna get drunk and party

[Chorus]

Long war is now past

Only good men have lasted

They need women, meat, beer and rom

Fight battle full of blood no thoughts about god they just slaughtered killed and tormented
