

**Hungry**  
**Kosheen**

Kosheen - Hungry

**Em**                    **G**                    **Em**  
You re like a child with old eyes,  
                                 **G**                    **Em**  
cynical and sensible, always full of surprises  
                 **G**                    **Em**  
you travel far and wide  
                                 **G**                    **Em**  
looking for the feeling, lost inside you  
                 **G**                    **Em**  
They don t understand you, no  
**G**                    **Em**  
until it s too late  
                                 **G**                    **Em**  
with everything they ve handed you  
                 **G**  
on a silver plate

-CHORUS-

**A**            **C**            **G**  
Are you hungry for a little more  
**G**                                    **A**  
than what you ve had before?  
                                 **C**            **G**  
Are you hungry for a taste of life?  
**G**                                    **A**                    **C**            **G**  
wet your appetite, are you hungry?

**Em**                    **G**                    **Em**  
Now give me this mountainside  
                                 **G**                    **Em**  
cool waters to lie beside  
                                 **G**                    **Em**  
give me these two strong eyes  
                                 **G**                    **Em**  
to see the difference between truth and lies  
                                 **G**                    **Em**                    **G**  
Ah, give me this feeling when you kiss me baby  
   **Em**  
every day and every night  
                                 **G**                    **Em**  
That s all I need, yes  
                                 **G**  
Everything is.. gonna be all right
