

Come And Get It
Krewella

Krewella/Come and Get it

This version is the same as my other submission, except without the chords for each individual drop note. It s a little easier on the eyes:D
Tune to Drop D, and everything can be power-chorded. Even the drops.
Note that while most of the song goes Gm, EbM, BbM, FM, for the verses EbM may be skipped
It s not that hard, and it s a great song :D
Enjoy!
