When we steal what we can

with a courage to be free

And I found where I be- long

Am G
Amongst the poorest company

When the wind feels like the world
in useless spinning all round me
A country round my shoulders
Its flag raised on a gallows tree

I won t let it get me down
I know there are people now
Who bind together what they do
And live their lives like I d want to

When we steal what we can
I take everything I see
And I found where I belong
Amongst the poorest company

When we steal what we can

With a courage to be free
And I found where I belong
Amongst the poorest company
