

**I Didn't**  
**Kristin Chenoweth**

[Intro]

**G D Em C**

[Verse 1]

**G**

They say that opposites attract

**D**

Well I can see it now as I look back

**Em**

If I wanted this

He wanted that

**C**

We'd bark and hiss like dogs and cats

**G**

Well the thing that drove me up a tree

**D**

Is the way he loved to disagree

**Em**

**D**

Each time we had a difference of opinion

[Chorus 1]

**C**

**D**

Well he liked the covers pulled down

**G**

But I didn't

**C**

**D**

He thought I should gain a few pounds

**G**

And I didn't

**C**

**D**

What finally tore our love apart

**Em**

**A**

Was a matter of religion

**C**

**D**

He thought he was God

**G**

But I didn't

[Verse 2]

**G**

Well it was more than just a lover's spat

**D**

And the civil war of the thermostat

**Em**

We'd wail and wail like maniacs

**C**

Throwin shoes and bric-a-brac

**G**

Well I can see him now in his muscle shirt

**D**

With those perky pecks

And that cocky smirk

**Em**

Standin there

**D**

Pushin all my buttons

[Chorus 2]

**C**

**D**

Well he liked the toilet seat up

**G**

But I didn t

**C**

**D**

He thought I should be a C cup

**G**

And I didn t

**C**

**D**

What finally tore our love apart

**Em**

**A**

Was a matter of religion

**C**

**D**

He thought he was God

**G**

And I didn t

[Bridge]

**D**

He really though he was the man

**Em**

Held my whole world in his hands

**F**

**C**

**D**

But if he ever comes down from that cloud he s sittin on

**Am**

**G**

Hallelujah brothers and sisters

**D**

I ll be gone

[Instrumental]

**C D G**

**C D G**

[Chorus 3]

**C**

**D**

What finally tore our love apart

**Em**

**A**

Was a matter of religion

**C**

**D**

He thought he was God

**Em**

**A**

He really liked himself a lot

**C**

**D**

He thought he was God

**G**

But I didn't
