Reflections Of You Krystal Meyers

Reflections of You by Krystal Meyers

Bm Bm7

I spent my time

G

Trying to find

F#

A way to lose your shadow

Bm Bm7

I shut you out

G

I let you down

F#

How could I be so shallow?

Bm Bm7

I never thought of the consequences

G F#

Until the water was over my head

G

All along I built these walls

G A

Now I m gonna let them fall

[Chorus:]

D Em D/F#

I m seeing for the first time

G A Bm A Em G

The changes on the inside shining through

D Em D/F#

Your love is the reason I m alive

G

So as I live my life

C

In everything I do

G D Em, F#, G, A

I hope you see reflections of you

Bm Bm7 G

You watched me make all my mistakes

F# Br

And you always took me back

```
Time and again you were my friend
        F#
                        \mathbf{Bm}
Show me how to be like that
                      Bm7
I wanna love you the way you love me
I wanna learn to forgive and forget
All along I built these walls
I m breaking free
Let them fall
[Chorus] - end with Bm instead of D
[Bridge:]
                     Em
I know that I m not perfect
            Bm
                 Α
But in your eyes you see something more
In everything I do
                               Е
                                      F# E A, B, A
I hope you see reflections of you
[Chorus:]
E F#
                   G#
I m seeing on the outside
                    C#m
                             В
                                      F#
                                               Α
The changes on the inside shining through
                  F#
Your love is the reason I m alive
So as I live my life
In everything I do
I hope you see reflections of you
```
