

## Good Enough

KSM

D                    A  
It seems the more we talk  
D/G                D  
The less I have to say  
Bm                                    G  
Let s put our differences aside  
D                    A  
I wanted to make you proud  
D/G                D  
But I just got in your way  
Bm                                    G  
I found a place that I can hide

C#/A  
Now everything is changing  
Bm                                    G  
But I still feel the same  
C#/A                                    A  
Are we running out of time

                                 D  
What do I have to do  
                                 Bm  
To try and make you see  
                                 A  
That this is who I am  
                                 G  
And it s all that I can be

D                    A  
I tried to find myself  
D/G                D  
Looking inside your eyes  
Bm                                    G  
You were all that I wanted to be  
D                    A  
There must be something else  
D/G                D  
Behind all the lies  
Bm                                    G  
That you wanted me to believe

C#/A  
Now everyone is saying  
Bm                                    G  
That I should find a way  
C#/A                                    A

To leave It all behind

**D**

What do I have to do

**Bm**

To try and make you see

**A**

That this is who I am

**G**

And It s all that I can be

**D**

And I won t let you go

**Bm**

And I won t let you down

**A**

I won t give you up

**G**

Don t you give me up

**D**

What do I have to do

**Bm**

To try and make you see

**A**

Trying to be like you

**G**

**D**

Isn t good enough for me
