

Lost
KT Tunstall

F F
Following my nose
Am
A detective with no lead
Am
Only my dreams know
F
What s got into me
F
I run by your side
Am
But I m out of breath
Am
Lower than the sea
F
And it s killing me
F
And it s killing me

[Chorus]

C
If I choose to go with the way I m feeling
Em
Does it really mean that s the way it is
Am F
Is it just a trick that my eyes are playing on my mind
C
Following the passage of least resistance
Em
Following the pack just to pass the gate
Am
It s a little late for a change of plan
E E7
Don t you think

F C Am
I got lost following you
F
Following you

F F
There s a camaraderie
Am
In a number for my chest
Am

Do this and do that
And forget the rest
But as the tide retreats
It s showing me the shore
There s danger going deeper
But I can t be here anymore
Can t be here anymore

[Chorus]

If I choose to go with the way I m feeling
Does it really mean that s the way it is
Is it just a trick that my eyes are playing on my mind
Following the passage of least resistance
Following the pack just to pass the gate
It s a little late for a change of plan
Don t you think

I got lost following you

What did I do that for
Am I an idiot
What did I do that for
Am I an idiot
What did I do that, do that for
