Before You Leave
Kurt Nilsen

```
F#                        Ebm7
Stay, stay a little longer.
             C#     Badd9
Do you have to go away?
F#                   Ebm7
Stay stay for tomorrow.
                    C#           Badd9
Then I will know, if I d rather be alone.
```

```
F#                 Ebm7                 C#
Take, take a moment of time and turn it back
                   Badd9
So we can start from scratch
F#                       Ebm7
Suppose, I ll leave all I ve got
               C#           Badd9
Would it make it easier on your heart?
```

```
F#                          Ebm7
Well I ll take what I can before you leave
                  C#
If that is just a smile
                            Badd9
I ll stay up all night, so I can watch you breathe
```

If that is alright
```
F#                      Ebm7
Come on and show me that silky skin
```

You re oh so fine
```
C#
I know we could turn it right
Badd9
I know we could turn it right
```

Throw, throw me a lifeline way out to sea
Would you save me if it all goes wrong?
Grab, grab me â€˜cause I m yours
Forever that s for sure
Because that s what I want you to tell me

Well I ll take what I can before you leave
If that is just a smile
I ll stay up all nigth so I can watch you breathe
If that is alright

Come on and show me that silky skin
You re oh so fine
I know we could turn it right
I know we could turn it right

G#sus   **Bbm**
But it s all an illusion
Bbm   **G#sus**
Easier said than done
G#sus   **Bbm**
Let s make a conclusion
Bbm   **G#sus**   **Badd9**
Guess it s worth giving it a try

Well I ll take what I can before you leave
If that is just a smile
I ll stay up all night so I can watch you breathe
If that is alright
Come on and show me that silky skin
You re oh so fine
I know we could turn it right
I know we could turn it right

Come on and show me that silky skin
You re oh so fine
I know we could turn it right
I know we could turn it right.

End with a **F#.**
