

**Never Easy**  
**Kurt Nilsen**

Intro " Dm C Am G x2

Dm C Am G  
Don't mind if you treat me bad again  
Dm C Am G  
I don't care anymore  
Dm C Am G  
Life's too short to make trouble out of small things  
F C  
It is better this way  
F C  
I'm sort of laid back today  
Repeat  
I close my ears when words come flying out  
I've heard them all before  
With just a lot of hope flushing down the drain  
It is better this way  
I am going away

Am F C G  
I try to learn some more  
Am F C G  
Instead of dragging the both of us down  
Am F C G  
If I separate ways  
Dm C  
It's never easy this way  
F C  
It's never easy this way

(The same for the next verse and chorus)

my palms are sweating I'm barely aware  
when I'm turning down  
A soulful life that is what I've been told  
Think it's better this way  
I won't regret it one day

I try to learn some more  
Instead of dragging the both of us down  
If I separate ways  
It's never easy this way  
It's never easy this way

Am Em  
Talk to me, throw the ball back  
F

I've been here before

**G**

There is no turning down

**Am Em**

Talk to me, just tell it like it is

**F**

Just two free souls going out each other at each other

(It's then once again the verse chords and then the chorus chords)

We're at the crossroad, going separate ways

Time to say it as it is

And if we bump into each other one day

We'll be better then

Maybe we can start all over again

Yeah, I try to learn some more

Instead of dragging the both of us down

If I separate ways

It's never easy this way

It's never easy this way

I try to learn some more

Instead of dragging the both of us down

If I separate ways

It's never easy this way

It's never easy this way
