                                                                  Bm

Oh my monkey love is funny when it s so strong
                                                                  Bm
And it s so strong and it goes on for so, so long

```
C                             D            E5
I see you saw me in the mirror in half
C                             D            E5      (play once before ripping
it s so exciting that we both just laugh and laugh   into the outro)
```

The outro starts with two downstrokes on D(5) and basically consists of playing the E5
chord over and over with two downstrokes on either D5 (x577xx), G5 (x101212xx) or
occasionally C5 (x355xx) and D5 at the end of each bar. Make it up as you go along or
play something like this:

D E G E D E C-D E G E C-D E G E G E G E E E

Easy-peasy!
